

I am glad that you are interested! Here is the detailed information about this vacancy, Kari.

More information about our company you can find at [www.ifc.org](http://www.ifc.org)

#### NEW International Finance Corporation iCOMMERCE SECTION

iCommerce platform enables the rapid and efficient introduction of new merchants, distributors, services and products, instantly bringing interactive commerce services to the entire subscriber base. It also lowers operational costs by leveraging existing investments in infrastructure, while providing the operator with an advanced, unified, comprehensive and business-driven infrastructure capable of delivering all existing and future payments, promotions and electronic recharging services.

In general, iCommerce platform represents very flexible Internet payment system that accepts almost every currency and transaction method. iCommerce allows customers and users to perform any kind of transfer from one exchange system to another in no time. This system enables our customers to broaden the variety of accepted payment methods, to reduce the transaction time and to make the whole payment operation highly secured. For example, iCommerce allows performing a direct exchange from Western Union to bank account. Money can now be sent from one system to another in no time. Also iCommerce lets customers to provide the person-to-business transfers for every user, when other systems provide the person to person transfers only.

#### EMPLOYMENT

Responsibilities will be to provide assistance with iCommerce platform to company clients. Customer service manager's accountability will be to instruct users, to provide the current statuses of their operations in the system and to be ready to answer on any general question about iCommerce and control all operations in company database. Candidate will get all necessary knowledge and experience during the training. No previous experience with iCommerce or alternative systems is required.

Before start to work, company will provide free training course to cover all aspects of the iCommerce platform operation and maximization. You don't need any special education in iCommerce services or finances, company will provide you all information. This course is to be done distantly (except first training day that should be held in 8 miles close to your house in local office location with your local manager). This means that you will be studying from your own home with internet access. Training duration is 1 week including 2 training hours of free time during the day.

During the training you will get all benefits like full company Employee and be paid by International Finance Corporation. The training period wage is \$99.4 daily and \$498 weekly by direct deposit from our company. You don't need to pay for training or job, company pays for it include benefits and dental/medical coverage.

After you finish free training courses in iCommerce section, you become a company employee and will get certificate of iCommerce Manager specialist . Kari Oversvee-Choi, you start working in International Finance Corporation local office, that 8 miles close to your house, in Full-Time position or from home in Part-Time position. You will have access to company database and all documents for work.

The Employee's guaranteed base salary is \$1750 for the Part-Time job and \$3900 for the Full-Time job include all benefits.

Kari, if you are interested to start free training course, please let me know as soon as possible. I will send you Training Courses Application Form include pre-interview form, you will sign it and we will start free training in iCommerce section and start to work.

With Best Regards,

Katrina Bowden
